Vaccine Acceleration by Modular Progression (VAMP)

LTC Amanda Love

Joint Project Manager for CBRN Medical

VAMP MODULAR APPROACH

Modular contracting strategy with multiple options and go/no go decisions across the development pathway; allows for vaccine acceleration through full or interim capabilities, to increase readiness against a broad class of threats, as need and funding allows.

This strategy helps vaccines accelerate through full or interim capabilities

REPURPOSING MEDICAL COUNTERMEASURES FOR CBRN DEFENSE

- Leverages investments and knowledge gained in conventional medical countermeasure development
- Fast and affordable way to deliver interim capabilities for known, potential, and unknown emerging threats
 - Collaborative with inter/intra-agency partners, academia, and industry
 - Proven during COVID-19 response
 - Leverages established safety and manufacturing
 - Bridges the gap until complete capabilities are in place

KEY OTA FEATURES

- OTAs have the following key features that enhance both the contractor and Government experience:
 - Open Communications: Government requiring office and Consortium Members are free to discuss any project attributes including cost, schedule and performance, new ideas/approaches, forecasts, etc.
 - No need to formalize discussions
 - No need to distribute discussion information
 - Exceptions:
 - Cannot discuss proprietary information of another contractor
 - Discussions are closed during evaluation periods
 - “Commercial Like” financing and payment terms
 - Follow-on Production (successful completion or unanticipated favorable results)
 - Negotiable IP and data rights
 - Flexible - (T&C, agreement types, evaluation process, success metrics, deliverables)
 - Streamlined – (EWP w/ROM vice formal proposal)
 - Basket
 - FAR DOES NOT APPLY

GETTING TO AGILE

DIVERSE ACQUISITION TOOLS AND THE PEOPLE WHO KNOW HOW TO USE THEM

Awards outside of MATOCs and OTAs

- Primarily awards of legacy components or are sole source

Program and SETA support MATOC

- Centralized management and support
- Standardized processes and procedures

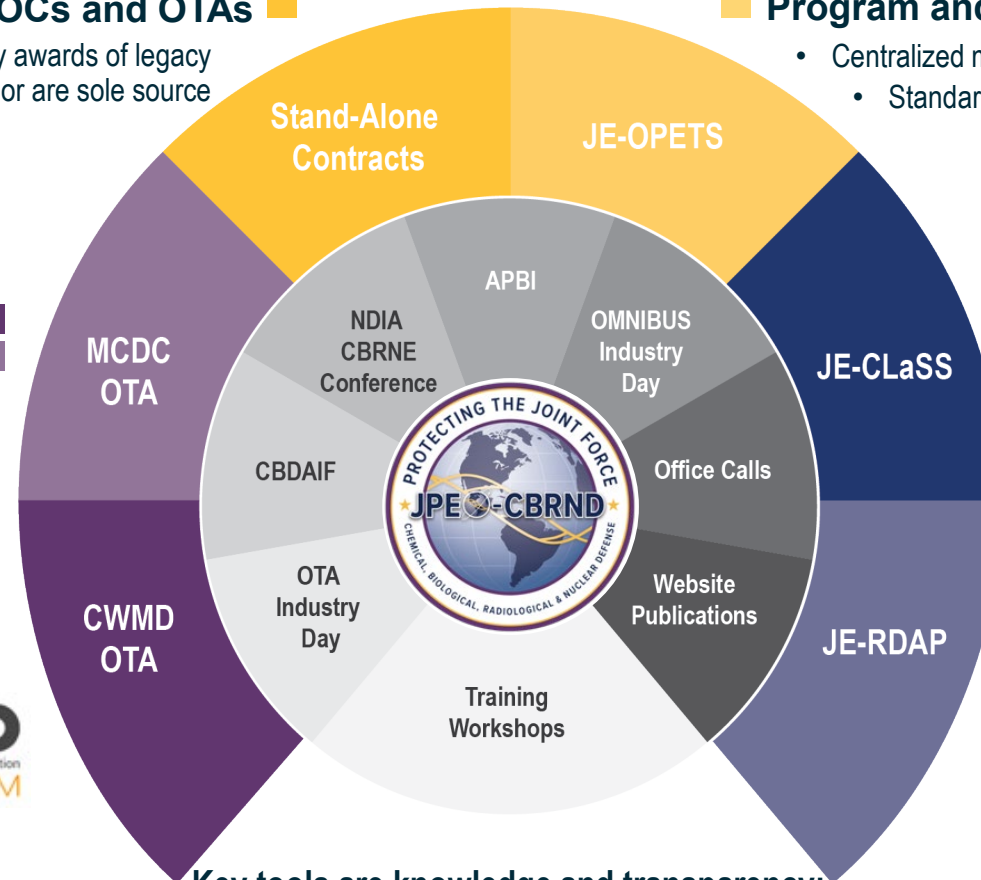

Medical and CWMD OTAs:

- Inspires technical innovation and expedited awards
- Expands industrial base to "Non-Traditional" Defense contractors
- Encourages partnerships amongst both Industry and Government entities

MCDC
Medical CBRN
Defense Consortium
Prevent | Diagnose | Treat

CWMD

CONSORTIUM

Enterprise-wide logistics and sustainment MATOC

Systems, equipment, and capabilities MATOC

- Pre-MDD through development, production, procurement, fielding and initial sustainment

Key tools are knowledge and transparency:

Multiple venues for Government and Industry interaction. Multiple training opportunities for JPEO staff, other partners and industry. One goal, equipping people to know how to use the right tool for the job.

OBJECTIVE AREAS

- CBRNE counter-proliferation, nonproliferation, and defense equipment
- Installation and force protection
- Command, control, communications, computers, intelligence, surveillance, and reconnaissance (C4ISR) systems for WMD detection, localization, identification, and tracking and CBRNE response operations
- Technologies that support the find, fix, finish, exploit, analyze, and disseminate (F3EAD) process
- Preparing for and combatting improvised threats and the improvised explosive device network
- WMD precursor, agent, and device defeat or neutralization
- Ensuring nuclear deterrence
- Manned and unmanned platforms capable of supporting CWMD operations
- Technologies that enhance the effectiveness of forces that are tasked to conduct CWMD operations
- Other operations related to the CWMD mission

KEY PROGRAM ROLES & RESPONSIBILITIES

YOU ARE NOT ALONE!

• Program Management Office (JPEO-CBRND)

- Execute program strategy and marketing
- Manage operations
 - Monitor Cost, Schedule, and Technical Performance
- Provide acquisition support and expertise
 - Contractual (1101/1102 series)
 - Technical (0800 and 1300 series)
- Maximize customer service and support
 - Training

• Agreements Officer (ACC-NJ)

- Review and approve requirements
- Review and approve evaluations of white papers/proposals
- Prepare Determination and Findings -- award approval
- Facilitation of legal and SCO reviews
 - Perform post-award administration

• Consortium Management Firm (ATI)

- Manage consortium
- Maintain on-line process for bid management
- Conduct pricing certifications
- Complete compliance checks
- Award sub-agreements
- Monitor post-award performance against technical milestones
- Manage payment process

• Agreements Officer's Representative

• Write requirements with program team

• Conduct evaluations

• Draft selection memoranda

• Monitor cost, schedule, and technical performance

• Approve deliverables

• Approve payments, etc.

• Communicate any changes to PMO/AO

COMING SOON: A new conduit to connect directly with the JPEO!

- » JETT is a web-based software application that facilitates industry engagement
- » Connects companies to the “right” point(s) of contact based on answers to a short questionnaire
- » Companies can also upload documents and additional information
- » Submissions will go directly to point(s) of contact for review and follow-up
