Airgas Healthcare
an Air Liquide company

Managing gas supply is a small part of managing your overall facility. However, it can be time consuming and sometimes stressful.

EZ-GAZ™ is a unique digital gas monitoring service that alerts you when your preset cylinder gas pressure level is detected, no matter where you are.

EZ-GAZ helps make gas management easy... and lets you focus on your real work instead.

Benefits for BIO Members:

EZ-GAZ gives you visibility, control and savings, with uninterrupted gas supply and backup options to help you:

- Reduce run-out risks and prevent shutdowns with real-time gas monitoring and low-pressure alerts
- Avoid costs resulting from emergency and rush deliveries
- Eliminate gas waste with preventive and predictive cylinder exchanges

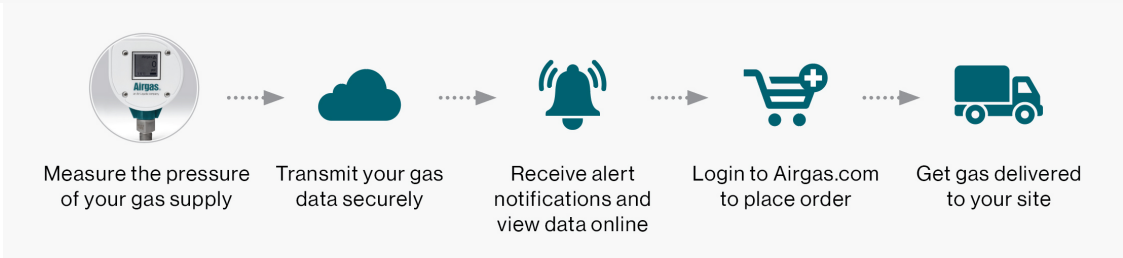

[Get Started with Airgas](#)

Key Features:

- Remote cylinder gas content monitoring with visibility from anywhere
- Custom alerts to help you know when to reorder and when to exchange
- Flexible reporting options for tracking and reporting your consumption

How EZ-GAZ Works:

Installation of EZ-GAZ is simple and quick—this highly secure digital system requires no wiring and is compliant with current FCC regulations and codes. Once installed, your data is safely collected and securely transmitted to your account, with real-time access that immediately improves the way you manage your gas supply.
