# Nikon BioImaging Lab

Contract Imaging Services from the company that knows imaging

*The Nikon BioImaging Lab provides contract research services for microscope-based imaging and analysis to the biotech, pharma, and larger research communities.*

## Who uses the Nikon BioImaging Lab?

- Life science, biotech, pharma, and academic researchers seeking additional capacity on a temporary or long-term basis.
- Companies that need access to data that can only be obtained on cutting-edge lab equipment – which often requires significant capital and an expert staff to operate and maintain.

## Nikon Contract Imaging Services Capabilities

- Full-service imaging, data analysis, assay development and cell cultures using industry leading microscope systems and software solutions.
- Labs are staffed with expert biologists and microscopy imaging professionals to serve as consultants to assist you to better understand your science and maximize the benefit of your contracted imaging services.

## Getting Started is Easy

Nikon offers BIO members an **exclusive discount** on the select contract imaging services below.

- Full-Service Imaging
- Consumable Supplies
- Assisted Equipment

- Equipment Use
- Occupancy Fee

Plus, BIO members are **eligible for a free pilot program** to help determine if contract imaging services are right for your research. Nikon's pilot program will explore your research requirements and help determine how your project will function in practice.
