

EXCLUSIVE COST SAVINGS FOR BIO MEMBERS

[LEARN MORE](#)

Emergencies can happen at any time in a lab or facility and it's crucial to have a response plan that follows local and state rules and regulations.

From immediate response and containment to cleanup operations, Clean Harbors has the manpower, equipment, and logistical support to manage any size emergency.

As BIO's preferred provider of environmental services with over 60 service locations and 50 waste management facilities in North America, Clean Harbors can be your single source emergency response partner.

What are the services?

1. Emergency Lab Packing

- Reactive and oxidizer removal, including inhibitors and on-site stabilization
- Cylinder and compressed gas management and disposal
- Fire and clandestine lab response

2. Chemical/Hazardous Material Spill Response

- Acids/Caustics/Reactives
- Response to metals release, i.e., mercury, lead, cadmium, etc.
- Available on-site health and safety managers

3. Emergency Response Packages

- Portable and fully stocked, reduces initial spill response time
- Minimize environmental impact with less remediation afterwards
- Eliminate the need to maintain and inventory your own response equipment
