

Patients Pay. Middlemen Take. Innovation Loses.

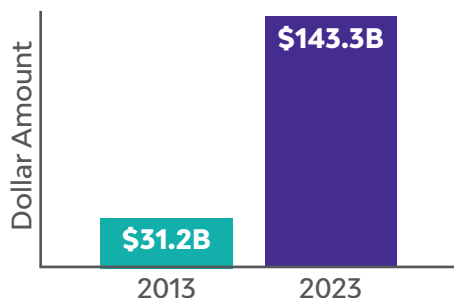

Half of every dollar spent on medicines is lost to supply chain mark ups

50%

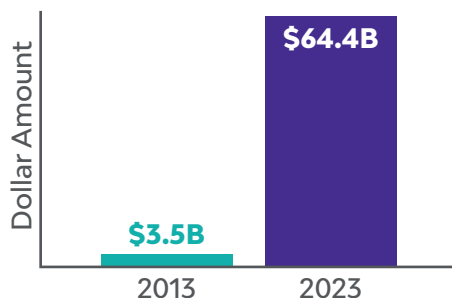

Digging Deeper Into the Data: The Alarming Truth

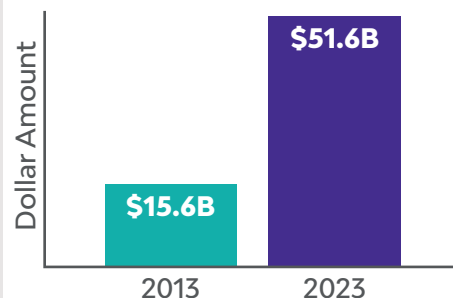

Over the past 10 years, rebates and fees allocated to PBMs and health plans increased nearly **five-fold**.

In 2023, 340B markups increased **18-fold**.

Discounts required by federal programs have **more than tripled**.

In short, billions of dollars are flowing to many entities that add no real value to patient care. Biopharma companies are stepping up to fund new treatments, while health plans, PBMs, and certain 340B providers are stealing patient savings and benefits.
