Launching below50 initiative
in South America:
Introduction to RSB

What is RSB? Independent global coalition

Supporting delivery on Climate & Development Goals

Sustainable Development Goals

- RSB aligned with SDGs
- Can help integrate solutions into operations

Paris Agreement UNFCCC COP 21

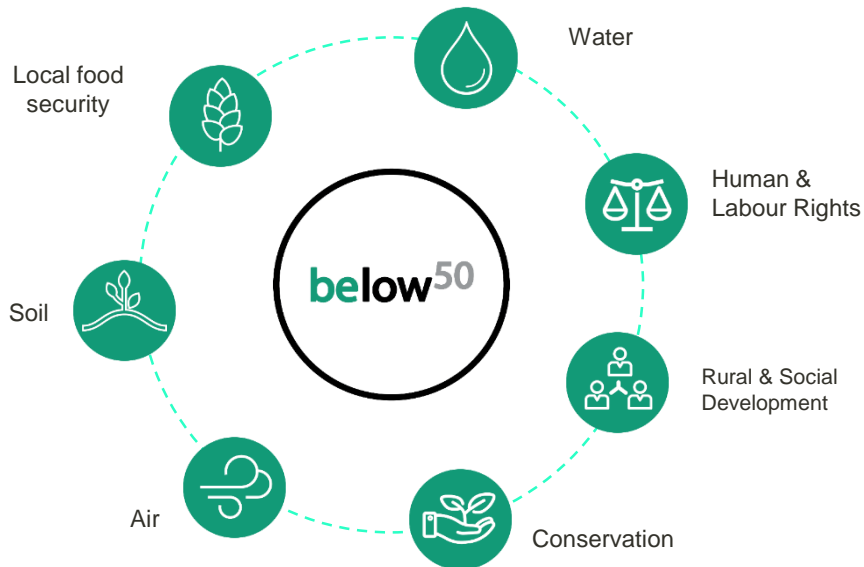

- RSB supports reduction in emissions via biomass
- Identifying solutions that are 100% sustainable

Aviation goals (Carbon-Neutral Growth from 2020 & 50% reduction of net emissions by 2050)

- RSB minimises risk across a range of sustainability issues
- Working on policy, new technologies, sourcing feedstock, smallholders

Providing Solutions to below50

- **Grow a global corporate market for renewable fuels through our extensive network, membership, certified operators, partner organizations.**
- **Offer our technical knowledge, experts, and relevance to any region on any feedstock.**
- **Ensure 50% GHG reduction is met while considering other sustainability criteria like food security, iLUC, human rights, smallholder livelihoods, and continuous improvement and monitoring.**
