

Nevada’s bioscience industry, while modest in size, has grown at a strong rate in recent years and outpaced national job growth. From 2014 through 2016, the industry grew by 7.6 percent to reach 6,705 jobs that span 579 business establishments across the state. Job gains occurred throughout the industry with four of Nevada’s five major subsectors contributing to the overall growth. State institutions have increased their receipt of NIH funding awards from about \$25 million annually in 2014-15 to more than \$31 million in both 2016 and 2017.

Bioscience Performance Metrics

Summary of State Performance in Selected Bioscience-related Metrics

Metric	Nevada	United States	Quintile
Bioscience Industry, 2016			
Bioscience Industry Employment	6,705	1,743,639	IV
Bioscience Industry Location Quotient	0.41	n/a	V
Bioscience Industry Establishments	579	85,702	IV
Academic Bioscience R&D Expenditures, FY 2016			
Bioscience R&D (\$ thousands)	\$69,345	\$41,972,205	V
Bioscience Share of Total R&D	40%	62%	V
Bioscience R&D Per Capita	\$24	\$130	V
NIH Funding, FY 2017			
Funding (\$ thousands)	\$31,510	\$26,150,485	V
Funding Per Capita	\$11	\$80	V
Bioscience Venture Capital Investments, 2014-17 (\$ millions)	\$31.69	\$66,168.62	IV
Bioscience and Related Patents, 2014-17	425	102,862	IV

State ranking figures for bioscience performance metrics are calculated as quintiles, where I = top quintile, III = middle quintile, and V = bottom quintile. For source notes, see end of State Profile.

Industry Subsector	Nevada		United States	
	2016	2014-2016 Change	2016	2014-2016 Change
Agricultural Feedstock and Industrial Biosciences				
Establishments	10	42.9%	1,709	-3.2%
Employment	98	71.4%	68,027	-1.2%
Location Quotient	0.15		n/a
